

## DESCRIPTION

Material: Galvanzied steel core,pvc coated  
size: 1/2"-4"  
Liquid tight flexible steel conduit available

## FEATURES

Extra waterproof ,highly tension ,oil and  
flame resistant .  
color: black and silver

## APPLICATION

These PVC Coated Flexbile Conduit are used  
to cover and protection of electrical cables and  
optic fibers.

## MODEL

size	Inside Diameter(mm)		Outside Diameter(mm)		Bending Radius(mm)
	Min	Max	Min	Max	Min
1/2"	15.80	16.30	20.20	20.70	65
3/4"	20.70	21.20	25.50	26.10	75
1"	26.00	26.60	31.60	32.20	100
1-1/4"	34.70	35.40	40.80	41.50	125
1-1/2"	40.00	40.60	46.60	47.20	150
2"	51.30	51.90	58.10	58.70	175
2-1/2"	63.00	63.60	71.80	72.40	200
3"	78.00	78.70	87.20	87.90	225
4"	101.60	102.60	111.20	112.30	275

## SPECIFICATION

PVC Coated Flexible Conduit offered by us in used for mechanical  
protection of cables and wires in tunnels ,hospitals,high-rise office  
blocks and public buildings, airlines ,underground and other place.

Further, these are also used for tight-spot installation and in places  
where water tightness is required . these are available in poly vinyl  
coating in black color wiht spiral corrugated partten finised surface,  
which makes them resistant to corrosion.PVC Coated Steel Flexible  
Conduit is suitable for galvanized steel and helical wond conduit.
