

DESCRIPTION

Steel emt connector set screw type

Material: Steel

Size : 1/2" - 4"

FEATURES

Concrete tight when taped .

Zinc plated

concrete tight for use with emt conduit

zinc ,aluminum die cast available

APPLICATION

EMT steel connector joins steel emt conduit
to electrical box and enclosure

SPECIFICATION

Steel EMT connectors are used to bond emt conduit to electrical
junction box or enclosures .

emt steel connectors provide concrete tight connections when tape
and properly secured with the included locknut ,and are rated for
electrical applications above 600 volts .

their heavy gauge steel construction maintains mechanical protec-
tion and soild grounding of the conduit to the designated electrical
junction box or enclosure .

Additionally ,emt conduit connectors are pure steel and zinc plated
for excellent corrosion protection .
