

DESCRIPTION

Steel strut clamp
Material:galvanized steel with one steel nut& bolt

FEATURES

EMT strut clamp ULstandard
Material:steel,ZP.HDG ,SS are available
ISO9001
For clamping pipe and strut channel

APPLICATION

These universal strut clamps are used to mount emt and rigid conduit from strut channel .

MODEL

CAT#	SIZE
21050	1/2"
21075	3/4"
21100	1"
21125	1-1/4"
21150	1-1/2"
21200	2"
21250	2-1/2"
21300	3"
21350	3-1/2"
21400	4"
21500	5"
21600	6"

SPECIFICATION

Channel clamps offered by us is fabricated in our manufacturing unit with the help of latest machines.
These clamps are fabricated using high quality mild steel and steel nut & bolt. We offer these channel clamps in electrical galvanized finish ,which makes them resitant to corrision and harsh weather conditions .these are know for features like toughness,sturdiness, efficiency,and durability .
